RMR E-News April 12, 2013

Hello RMR Faithful!

Springtime in Colorado! The weatherfolks sure missed the mark on the last 'blizzard of the year.' Strong winds and a little snow was all we got. I ask the Good Lord everyday for some moisture for the ground and for our farmers. Put us all in your prayers, if you would. I believe if we pray collectively, we will be given the moisture we need for the crops and birds.

We are now operating on **SUMMER HOURS** at your club. That means we are closed Sunday and Monday. This gives the guys a much needed break and 2 days off in a row. **If you want to shoot at any of the ranges--clay targets, pistol or rifle--please call us for reservations at 719-635-3257. The same goes for running your dogs or training. Watch our website and emails for our dog training seminar dates too!**

May renewals are in the mail and if you are not a member yet, but would like to be a part of the RMR Family, just send us an email and we will send you a membership application right away.

I had a great phone call today, and if it is true.....the first of our 3 large bulk ammo shipments might be coming in the coming month or so. Cross your fingers!

PLEASE don't hammer me with emails and calls asking for details. I will let you know when and if it arrives. There will not be any extra, so you can keep looking around town for ammo. Buy it when you see it. I will let those folks in the first order know when and if it arrives. The log jam of ammo seems to possibly loosening a bit.

If you know someone that you think would like to get the RMR E-News on a regular basis, have them go to our website and OPT IN for our weekly newsletters. www.rmroosters.com
Or you can go there now if you are not already getting our weekly news

IMPORTANT QUESTION FOR COLORADO SPRINGS MEMBERS, GUESTS AND FRIENDS

Do you live in Senate district 11...Senator John Morse would be your state Senator. Do you know someone that does live in that Senate district?? Check it out here to see if you are in that district or know people that are registered voters in that district. Download a PDF Map of [Colorado Springs Senate District 11 - John Morse](#)

We are helping collect signatures from registered voters in his district in an effort to have Senator Morse recalled. We have petitions and would be glad to come to your home or office (or you could come to the RMR corporate office) so you can sign the petition. Senator Morse... and other Representatives, Senators and the Governor... threw law abiding gun owners under the proverbial bus and also will cost Colorado upwards of 1 BILLION DOLLARS in tax revenue, jobs and business revenue to leave the state. The ripple effect of the passage of the gun bills is also being realized in the hunting/recreation industry as people are not coming to Colorado to hunt, fish, ski and vacation.

For more information check out <http://gotremorse.com/home/>
If you want to help in this effort, they can use more volunteers too.

TALKIN' TURKEY

Turkey season opens in Colorado on April 13, and is already open in many other states. If you are going to chase the longbeards, like many of us will....you might want to get a 3 minute refresher on calling these fun to hunt Toms.

RMR MEMBERS NEWS

Congrats to Brett and Joni Hemmerling on the new arrival of their baby girl Brooke. Brett has already started applying for Sheep and Moose for her! Proud Grandpa Manny (and Brett) supplies RMR with our seed for the crops via Rio Grande Commodities in Alamosa.

Dominique Chavanon is slowly recovering from a horrible bike accident. He and his wife own Marigold's Restaurant in Colorado Springs and he is back to work, but they say it will be several more months for Dom to be back full speed.

Prayers for all that are hurting and healing!

GUN SAFETY CLASSES BEGINNER AND INTERMEDIATE

We have the schedule for the next few months of class dates for the RMR gun safety classes.

The basic pistol class starts at the very beginning and is perfect for those that might not have ever fired a weapon. This is truly a gun safety class and after completion of the course, you can get your concealed carry permit if you chose to do so. The cost is still only \$90 and the class is a one day course, and you will actually shoot handguns (unlike many other courses and much more extensive than other 'hotel' classes) You will need 50 rounds of ammo for this class or you can rent a firearm with ammo for \$25.

The RMR Intermediate Pistol Course is the next step in training and education. This course is for those that have already taken the RMR Basic Pistol Course or already have their concealed carry permit. This class teaches the students how to draw from a holster and address multiple targets as well as moving targets. You will also learn ammunition management, how to deal with gun malfunctions, tactical and emergency reloading and eventually drawing a handgun from concealment.

The Intermediate class is \$225 and you must have a semi-automatic pistol 3 magazines, an outside the waistband holster, magazine pouch and a minimum of 300 rounds of ammunition.

BASIC GUN SAFETY CLASS DATES (Pick one day....this is an 8 hour class)

May 11 May 18 May 25 June 15 June 29 July 20

INTERMEDIATE CLASS DATES

May 19 June 9 June 30 July 21

We can also do private classes other dates...weekdays or weekends... for groups of 8 or more. Consider a family, office or church group private class with us.

For more information on registering for any of the courses, email pistol@rmroosters.com

RMR BRAIN TEASER

Nature is amazing when it comes to camouflage. How many of what animal do you see?

We will draw four winners with correct answers and each winner will win a jar of the AWESOME Cowboy Healing Balm from AnnaMarie and Colorado Mountain Balms. www.coloradomountainbalms.com and a gift certificate for 2 rounds of sporting clays at RMR.

Send your answer to hunt@rmroosters.com

A DOZEN THINGS TO DO WITH WD-40

1. Use WD-40 to protect a bird feeder

To keep squirrels from taking over a bird feeder, spray a generous amount of WD-40 on top of the feeder. The pesky squirrels will slide right off.

2. Separate stuck glassware

What can you do when you reach for a drinking glass and get two locked together, one stuck tightly inside the other? You don't want to risk breaking one or both by trying to pull them apart. Stuck glasses will separate with ease if you squirt some WD-40 on them, wait a few seconds for it to work its way between the glasses, and then gently pull the glasses apart. Remember to wash the glasses.

3. Get off that stuck ring

When pulling and tugging can't get that ring off your finger, reach for the WD-40. A short burst of WD-40 will get the ring to slide right off. Remember to wash your hands after spraying them with WD-40.

4. Exterminate roaches and repel insects

Don't let cockroaches, insects, or spiders get the upper hand in your home. * Keep a can of WD-40 handy, and when you see a roach, spray a small amount directly on it for an instant kill. * To keep insects and spiders out of your home, spray WD-40 on windowsills and frames, screens, and door frames. Be careful not to inhale the fumes when you spray and

do not do this at all if you have babies or small children at home.

5. Remove touch scuff marks

Those tough black scuff marks on your kitchen floor won't be so tough anymore if you spray them with WD-40. Use WD-40 to help remove tar and scuff marks on all your hard-surfaced floors. It won't harm the surface, and you won't have to scrub nearly as much. Remember to open the windows if you are cleaning a lot of marks.

6. Wipe away tea stains

To remove tea stains from countertops, spray a little WD-40 on a sponge or damp cloth and wipe the stain away.

7. Clean toilet bowls

You don't need a bald genie or a specialized product to clean ugly gunk and lime stains from your toilet bowl. Use WD-40 instead: Spray it into the bowl for a couple of seconds and swish with a nylon toilet brush. The solvents in the WD-40 will help dissolve the gunk and lime.

8. Winter proof boots and shoes

Waterproof your winter boots and shoes by giving them a coat of WD-40. It'll act as a barrier so water can't penetrate the material. Also use WD-40 to remove ugly salt stains from boots and shoes during the winter months. Just spray WD-40 onto the stains and wipe with a clean rag. Your boots and shoes will look almost as good as new.

9. Clean and restore license plate

To help restore a license plate that is beginning to rust, spray it with WD-40 and wipe with a clean rag. This will remove light surface rust and will also help prevent more rust from forming. It's an easy way to clean up lightly rusted plates and it won't leave a greasy feel.

10. Prevent snow buildup on windows

Does the weather forecast predict a big winter snowstorm? You can't stop the snow from falling, but you can prevent it from building up on your house's windows. Just spray WD-40 over the outside of your windows before the snow starts and the snow won't stick.

11. Keep wasps from building nests

Don't let yellow jackets and other wasps ruin your spring and summer fun. Their favorite place to build nests is under eaves. So next spring mist some WD-40 under all the eaves of your house. It will block the wasps from building their nests there.

12. Remove doggie-doo

Uh-oh, now you've stepped in it! Few things in life are more unpleasant than cleaning doggie-doo from the bottom of a sneaker, but the task will be a lot easier if you have a can of WD-40 handy. Spray some on the affected sole and use an old toothbrush to clean the crevices. Rinse with cold water and the sneakers will be ready to hit the pavement again. Now, don't forget to watch where you step!

TWO FOR THE ROAD

A man and his wife were sitting in the living room discussing a "Living Will"

"Just so you know, I never want to live in a vegetative state, dependent on some machine

and fluids from a bottle. If that ever happens, just pull the plug."

His wife got up, unplugged the TV and threw out all the beer.

+++++++

A man asked his wife what she'd like for her birthday. "I'd love to be eight again." she replied. On the morning of her birthday, he arose early, made her a nice big bowl of Coco Pops, and then took her off to the local theme park. What a day! He put her on every ride in the park: the Death Slide, the Wall of Fear, the Screaming Monster Roller Coaster, every thing there was. Five hours later she staggered out of the theme park. Her head was reeling and her stomach felt upside down. Right away, they journeyed to a McDonald's where her loving husband ordered her a Happy Meal with extra fries and a refreshing chocolate shake. Then it was off to the movies: the latest Star Wars epic, a hot dog, popcorn, all the Coke she could drink, and her favorite M&M's. What a fabulous adventure! Finally she wobbled home with her husband and collapsed into bed exhausted. He leaned over his precious wife with a big smile and lovingly asked, Well, Dear, what was it like being eight again?" Her eyes slowly opened and her expression suddenly changed. "I meant my dress size!!!!!!

The moral of the story: Even when a man is listening, he's gonna get it wrong.

+++++++

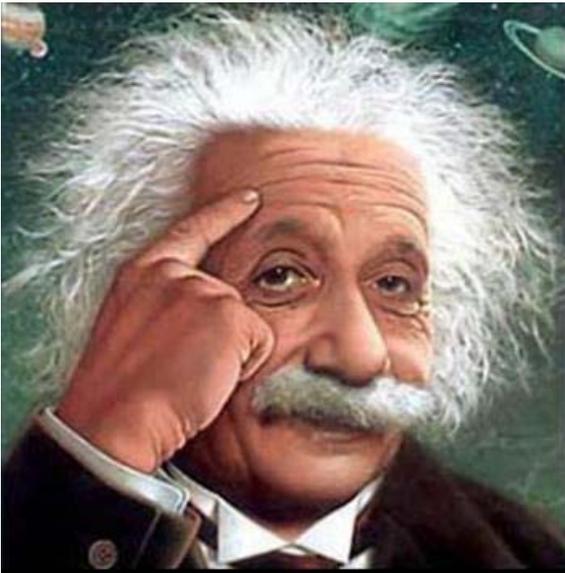

One Extra for the weekend!!

SHIPPING FUNNY

(I love the "bed"!!)

Help me understand the logic of this:

Watching 2 hours of violence in a movie has no influence on our behavior

BUT a 30 second Super Bowl ad is worth \$3.8 Million because it will make us run out and buy a product.
