THREE GIANT QUAIL HUNTS LEFT!!

WHAT IS A GIANT QUAIL HUNT?? These hunts are all day events and groups of up to four can harvest 100 Bobwhite Quail. This is a fantastic workout for your dog or you can chose to have an RMR guide take you on the adventure. The cost is still only \$950 for members or \$1250 for non-members. We have a limited number of hunts each year, and there are 3 left for the season. We run these hunts from the first of October through December 15th. You don't have to pick a date now, but you do need to get your name on the list for a hunt or two. We have 30 hunts each year and **there are 3 left for this year**. Give us a call or email us to get on the list for one or two hunts! **719-635-3257** hunt@rmroosters.com

Important Dove Hunting Info:

**YOU HAVE TO HAVE A COLORADO SMALL
GAME LICENSE AND HIP NUMBERS** Mourning

Doves are federally regulated and you must have a

Colorado Small Game license and don't forget to get your HIP number. If you get caught without a license or HIP number you will get a ticket from the CPW. Trust me, they will probably be checking.

One of the most common items that small-game hunters forget about every year is the Harvest Information Program (HIP) number. Yet, registering for an HIP number is fast and easy. Simply go to the Colorado HIP website www.colohip.com or call 1-866-COLOHIP to obtain a number. Be sure to write the HIP number in the space provided on your small-game license. The HIP helps wildlife managers establish harvest estimates for doves and other migratory birds. A small-game license AND an HIP Number are required to hunt doves and other small-game species in Colorado.

HOW TO MAKE RESERVATIONS TO HUNT AT YOUR CLUB

Here are the rules for you to make a reservation. Remember that we have a 48 hour cancellation policy. IF weather is so bad that it is unsafe to get to the club, we will cancel the hunt and will call you. We do not want to endanger anyone, but we hunt in all sorts of weather.

If you call the office to make reservations, please speak slowly and leave your phone number....believe it or not we have more than one John or Jim as members!

The only number you call to make reservations is the office--719-635-3257. If it is after hours during the week, leave a message and we will call you the next business day. (Don't call the clubhouse to make reservations....please!)

You can call the office Monday - Friday, 8am-5pm and make reservations by phone at 719-635-3257.

You can also make reservations by email. Email hunt@rmroosters.com

When you email a reservation, we will reply to you to confirm the reservation. You need to tell us how many hunters are in your group, if you will need a guide (are you hunting with your own dog or not) and what birds you want to shoot....Pheasants or Chukar or BOTH. A mixed bag is lots of fun and you don't have to care about what gets up to shoot at.

Do not email hunting reservations after 5pm on Friday...weekends. We don't always look at email during the weekends. Call the office number and it will direct you to the clubhouse, if we are not in the office to get your call.

EMAIL OR PHONE...THOSE ARE THE TWO WAYS TO MAKE RESERVATIONS. DO NOT CALL THE CLUBHOUSE TO MAKE RESERVATIONS (UNLESS IT IS ON THE WEEKEND) REMEMBER!!!

There is a 48 hour cancellation policy.

We can not take more than 4 people in a party NO EXCEPTIONS!!

The guide fee is \$50 per group, not per person. 1 to 4 hunters.

Hunts start at 8 and run until 11am or from 1 to 4pm.

CANCELLATIONS OR RESERVATIONS AFTER HOURS OR ON THE WEEKENDS--

Don't leave messages on the office recorder after 5pm on Friday for reservations or cancellations. We won't get them until Monday. Do not email on weekends either. If you have a cancellation, you must call so we are 100% sure we get the message that you can't make your hunt. Don't email or text (we don't do texts)

Concealed Carry & Home Defense

By Massad Ayoob, Personal Defense World

Sometimes, what seems like good advice at the time is proven later to be not so great. The record shows that decades ago, when more adult Americans smoked than not, popular magazines carried ads in which physicians endorsed this or that brand of cigarette. Brand A was an excellent aid to digestion after meals, one doctor said. The menthol in Brand B was soothing to a sore throat, another physician opined.

Today, of course, we know better. Oncologists who've treated patients suffering from throat cancer will tell you that those old claims are bunk. They sure sounded authoritative back in the day, though. Some advice on gunfight survival goes back to the same era. And some of it is just as suspect. Let's look at a few examples.

Fact vs Fiction in the Gunfight

So I got my concealed gun permit yesterday...

...and went over to the local Bass Pro Shop to get a small 9mm pistol for home protection.

When I was ready to pay for the gun and bullets, the cashier said "Strip down, facing me."

Making a mental note to complain to the NRA about the gun control wackos running amok, I did just as she had instructed.

When the hysterical shrieking and alarms finally subsided, I found out she was referring to how I should place my credit card in the card reader!

I've been asked to shop elsewhere in the future. They need to make their instructions to seniors a little clearer.

I still don't think I looked that bad.

TWO FOR THE ROAD

A distraught senior citizen phoned her doctor's office. "Is it true," she wanted to know, "that the medication you prescribed has to be taken for the rest of my life?"

"Yes, I'm afraid so," the doctor told her.

There was a moment of silence before the senior lady replied, "I'm wondering then, just how serious is my condition because this prescription is marked 'NO REFILLS'?"

During a test, the college professor noticed that a married student, who was quite pregnant, kept rubbing her side. After class, before she left, the teacher asked her, "Are you okay? I noticed you were holding onto your side."

"Oh, I'm fine," the student answered. "It's just that my baby was pushing his foot up and down my ribs, and it hurt a little."

"Well, that's good," the professor said, feeling relieved.

"Yes," she continued. "It's strange. He normally sleeps during your class too."

We have heard about a problem with canine flu in Colorado. This is not very wide spread yet, but it could be. We are vaccinating our dogs and we recommend that you talk to your veterinarian and consider having your dog vaccinated for the flu. Ben Garcia--our trainer and owner of Hideaway Kennels at RMR--already requires any dog that boards or trains with us has Bordetella, Rabies, and Parvo vaccinations.

Here is a very interesting article about--

WHAT TO EXPECT AFTER YOUR PET'S VACCINATION

It's the latest thing.
It's called the veterinarian diet.
